

SECTION A ERD

ERD Notes

- Each **Role** can be assigned to many **Users**, while each User has one Role.
- A **User** with the Organiser role can create many **Events**, while each Event has one Organiser.
- An **Event** can have many **Event Categories**.
- A **Category** can be used for many **Event Categories**.
- Therefore, **Event** and **Category** have a **many-to-many relationship** through the **EventCategory** entity.
- A **User** with the Participant role can have many **Enrolments**.
- Each **Enrolment** belongs to one **EventCategory**.

- An **Enrolment** can have zero or one **Result**, because a participant may be enrolled before the race has been completed.
- **PK** means Primary Key and uniquely identifies each record.
- **FK** means Foreign Key and links related entities.
